Humane League

If I were allowed to donate money to to a charity of my choice I would chose the Humane League. I would chose the Humane League because it needs money to help pay for anything like medicine, food, or anthing animals need to help them out in life.

The money should go to the Humane League because the Humane League helps people out a lot. If there wasn't a Humane League, people wouldn't have an animal to love. The Humane League helps animals get better fast. The Humane League helps animals that were abused. My cats came from the Humane League. Their owner used to abuse them a lot. I got two out of the three that the Humane League found. The one we didn't get had an attitude because she got abused really badly. The Humane League does a lot of expensive proceders but it does them for free.
